

Name	Legend	Name	Legend
circ jet		water manifold	
message jet		waterfall	
15 "back water outlet		suction	
5 " Valve jet		drainage valve	
2"swimming jet		one-way valve	
7" multi-part message jet		Water pipes	
side drainer		Ozone UV all-in-one machine	
air control		pump air release	
waterfall valve		Ozone generator	
water divert		UV	
plow		heat pump ready	
filter		Blower	
Electric controller		circ pump	
two speed pump		message pump	

Water manifold Q connect to jets Q1,Q2,Q3,Q4 ,UV and waterfall control valve Q6.

Water manifold K connect to jets in the seat K1 , K2 and jets K3.

Water manifold L connect to jets in the seat L1,L2.

Water manifold M connect to jets in the lounge seat M1.

Air control F control jets in the seat K1、K2 and jets K3.

Air control N control jets in the seat L1,L2.

Air control O control jets in the lounge seat M1 .

Water manifold A connect to jets in the seat A3, and A4 and waterfall control valve A5,A6.

Water manifold S connect to jets in the seat A2.

Air control F control 2"swimming jet A1.

Air control G control 2"swimming jet D.

Air control H control 2"swimming jet B,C .

Air control I control 2"swimming jet E.

Air control J control jets in the seat A2,A3,and A4 .
